

Maintaining Accurate Voter Rolls

Whereas, the citizens of Dallas County demand that our elections be verified and accurate and completed in timely fashion, we direct the Texas Legislature to add the following provisions to the Texas Election Code.

1. Be it resolved that the County Registrar of Voters will publish an updated on line list of registered voters each month. The initial voter categories will be Existing, New, Deceased, Moved, and Diminished Capacity.
2. Be it resolved the County Registrar of Voters will conduct a full audit of county voter rolls thirty days before a major election. The audit will be checked against the E-Verify database. Changes to the county voter rolls after this audit will be prohibited.

These provisions may be adapted for efficiency and practicality by legislators, but the intent must remain intact.
